An Introduction to Wraparound Care

Get a head start with JAG UK

Designed for primary school children, JAG UK provides a safe, fun and engaging space before and after school and throughout the holidays!

We understand how busy family life can be. Whether you're working, studying, or just need extra flexibility, JAG UK offers peace of mind, with qualified educators caring for your child in a relaxed, social environment.

How can we support your child's development?

School Readiness

Starting school can be daunting for kids. Our programs help set children up for the best possible day at school and create an environment where friendships can thrive outside of the classroom.

Where play meets potential

We are passionate about play. We understand the important role it has in a child's positive learning and development. That's why all our programs are designed around play, fun and friendship.

Life skills

We give children the opportunity to learn about and practice important life skills like taking care of themselves and the environment around them, extending on what's taught in the classroom.

Social development

Monash University[1] research found that our Adventure Program scored highly on learning outcomes relating to identity, social connection and wellbeing. 90% of children reported that our program helped them look after themselves and their friends.
