How can we support your child's development?

Where Play Meets Potential

We are passionate about play. We understand the important role it has in a child's positive learning and development. That's why all our programmes are designed around play, fun and friendship.

Life Skills

We give children the opportunity to learn about and practice important life skills like taking care of themselves and the environment around them, extending on what's taught in the classroom.

School Readiness

Starting school can be daunting for kids. Our programmes help set children up for the best possible day at school and create an environment where friendships can thrive outside of the classroom.

Social Development

Monash University research found that our Adventure Programme scored highly on learning outcomes relating to identity, social connection and wellbeing. 90% of children reported that our programmes helped them look after themselves and their friends.
